

**Product:** Ledway Street

**Project Data.**

The project included 40 Ledway Street fixtures with 80 LEDs each (four light bars), equipped with asymmetric road optic (TS type). Ledway Street luminaires are mounted onto 7mt. height square poles with an interdistance of 26 meters.

**Lighting Performances.**

Luminance levels obtained with Ledway Street 80 LEDs fixtures: 1.1 cd/m<sup>2</sup> average on the ground  $U_0=0.46$ ,  $U_l=0.73$ ;  $SR=0,77$ ;  $T_i=13$ . The average illuminance level is 15 Lux,  $U_{med}=0.61$ .

LEDWAY – UNCOMPROMISING BRILLANCE
